

**AIR CONDITIONING FILTERS**

**AAF | Flanders**

The world leader in clean air solutions keep your customer's equipment clean and working the way it should be!

**PREPLEAT® M13**

Extended Surface Pleated Panel Filters

**Product Overview:**

- 2-piece heavy-duty die-cut frame.
- Expanded metal backing.
- High efficiency with low initial resistance.
- 100% synthetic recyclable high-loft media.
- Diagonal grid supports for maximum strength.

**NOW STOCKING**

IN OUR NORTH VANCOUVER LOCATION

**Typical Applications:**

- Commercial Buildings
- Food and Beverage
- Healthcare
- Hospitality
- Filter upgrade on existing equipment
- Added layer off customer protection
- Schools and Universities

**Mechanically Efficient**

**Environmentally Responsible**

**Water Resistant**

**Low Initial Resistance**

**PERFECTPLEAT® SC M8**

Standard Capacity MERV 8 Pleated Filter

**Features:**

- Best suited for standard capacity pleated panel filter applications.
- Promotes air flow and maximizes dust holding capacity (DHC).
- It has an initial rating of MERV 8, but the efficiency increases when the power loading begins.

**PERFECTPLEAT® HC M8**

High Capacity MERV 8 Pleated Filter

**Features:**

- Reduces energy consumption and operating costs.
- It has approximately 25% more media than our standard capacity filter.
- Promotes air flow and maximizes dust holding capacity (DHC).
